

**JANE PIT PROJECT
EVALUATION FRAMEWORK**

Inputs	Outputs		Outcomes - IMPACT			Assumptions	External Factors
	Activities	Participation	Short	Medium	Long		
Workington Town Council - cash contribution and resource	Dig further - digger deeper in the ground around Jane Pit 4 x trenches dug 10 x onsite days of excavation	30 volunteers 100 site visitors 200 KS2 Pupils	Developing skills / learning new skills. Partaking in an enjoyable experience.	Progression to further training / education and future employment opportunities	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Developing community buy-in will impact on social cohesion and lessen anti-social behaviour. This is difficult to evaluate in a meaningful way, but may be assumed from evidence elsewhere. (Casey Review 2016, appendix 28 and many others previously)	Adverse weather conditions compromising excavation activities and lowering audience participation
Heritage Lottery Fund - cash contribution and support	Mining the archives - 4x desk based research w/shops. 4x school workshops	10 members of the community. 60 KS3/4 pupils	Developing skills / learning new skills. Partaking in an enjoyable experience.	Progression to further training / education and future employment opportunities	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Schools and residents will welcome the opportunity to participate in a project to develop skills and knowledge.	Lack of participation from schools (possible timetable clashes with school curriculum requirements) Lack of take up from community.
FACE Consulting; Community Engagement Officer - resource, contracted by WTC	Tales of the Pit - oral recording event and video documentary	10 community participants 60 pupils	Developing skills / learning new skills. Partaking in an enjoyable experience.	Progression to further training / education and future employment opportunities	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Community and schools will welcome opportunity to participate in project to share memories, develop knowledge	Lack of participation from schools (possible timetable clashes with school curriculum requirements) Lack of take up from local community to share memories
DigVentures - archaeology, contracted by WTC	Virtual Museum - photogrammetry w/shops. Digital reconstruction	10 participants	Developing skills / learning new skills. Partaking in an enjoyable experience.	Potential to ignite an interest in archaeology, photogrammetry and digital skills and seeking out future opportunities to participate in similar activities	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Community will welcome opportunity to participate in project and develop skills and knowledge	Lack of participation from local community
D3 Associates - Principal Designer, contracted by WTC	Dig camp - parent and child weekend to dig the trenches	20 x families (parents / carers and toddlers)	Providing an enjoyable activity for all the family.	Potential to ignite an interest in archaeology and families seeking out future opportunities to participate in similar activities	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Families will participate and have an enjoyable day whilst learning about the basics of archaeological excavation processes and learning about Jane Pit and mining in the Victorian era	Lack of participation by families and adverse weather conditions leading to event cancellation and/or families willingness to attend the session
Allerdale Borough Council - landowner	Landscape drawing class	KS2 pupils	Developing skills and learning new skills. Partaking in an enjoyable experience.	Potential to encourage pupils to further develop their skills and knowledge (and qualifications / further education and training in art)	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Schools and pupils will welcome opportunity to participate in project and develop skills and knowledge	Lack of participation from schools (possible timetable clashes with school curriculum requirements) Adverse weather affecting external site visits to participate in sessions
	Schools comp - design interpretation panel - linked to all other school activities within the project	KS2 and KS3/4 pupils	Interaction and engagement with schools. Partaking in an enjoyable experience.	Potential to encourage pupils to further develop their skills and knowledge (and qualifications / further education and training in art)	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Schools and pupils will welcome opportunity to participate in project and develop skills and knowledge	Lack of participation from schools (possible timetable clashes with school curriculum requirements) Adverse weather affecting external site visits to participate in sessions linked to increasing pupils knowledge of the project site
	Victorian Games / Children in Coal Mine / Storytelling	KS2 pupils	Interaction and engagement with schools. Partaking in an enjoyable experience.	Potential to encourage pupils to further develop their skills and knowledge (and qualifications / further education and training in local history and drama)	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Schools and pupils will welcome opportunity to participate in project and develop skills and knowledge	Lack of participation from schools (possible timetable clashes with school curriculum requirements).
	Science of mining - teaching schools of the science behind how the mines worked	KS2 pupils	Interaction and engagement with schools. Partaking in an enjoyable experience.	Potential to encourage pupils to further develop their skills and knowledge (and qualifications / further education and training in history and science based subjects)	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Schools and pupils will welcome opportunity to participate in project and develop skills and knowledge	Lack of participation from schools (possible timetable clashes with school curriculum requirements).
	Miners Walk / Tours of Jane Pit	All ages user led activity, local community and visitors to Workington	Increase in awareness of Workington's wide spread mining heritage	Encouraging participants to become more involved with / take an interest in elements of the project - heritage, project management, construction etc.	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Local Community and visitors will take the opportunity to download / pick up a leaflet to take them on a guided tour of the towns historic mining sites and learn about their locations and extent of Victorian industrial mining in Workington	Inability to place symbols / plaques at mining locations due to planning permissions / objections from external agencies / owners of mine site locations. Adverse weather conditions requiring tours to be cancelled.
	Coffee and Chat - verbal history with members of the DAA	Members of DAA (Dementia Action Alliance)	Providing a members of the DAA a unique and enjoyable experience.	Social interaction	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	DAA will welcome the opportunity to participate in project	DAA lack of participation, communication difficulties if appropriate support is not secured to address these
	Photography Session / Lesson	Amateur local photographers / college or A Level students	Reaching a different audience. Partaking in an enjoyable experience	Educating participants on historical information	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Amateur photographers / colleges and 6th form students will welcome the opportunity to participate	No take-up from amateur photographers or college / 6th form students Adverse weather conditions affecting on-site sessions
	Exhibition	All ages user led activity, local community and visitors to Workington's Helena Thompson Museum and pop-up display in town centre, potential for organised school educational visiting experiences at Helena Thompson museum	Showing the community what was found at the dig	Educating visitors on Workington's contribution to historical mining developments and the town's heritage	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	Local Community, schools and visitors will take the opportunity to visit the museum or pop-up display to learn about developments in Victorian mining industry in Workington	Financial or other organisational issues may compromise our local museum and our ability to display artefacts and the information gathered and produced during this project or no availability for a pop up display in the Town Centre.

	Interpretation Boards	All ages user led information point at Jane Pit , immediate local community and passing traffic	Providing the community with historical information and a focal point to remember, celebrate and memorialise Workington's mining heritage	Educating locals and visitors on history of Jane Pit	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	That the remedial repair work, repairs and future maintenance and management of the site, in addition to interpretation boards - produced in conjunction with local schools - will raise the profile of the site and increase community pride and knowledge of Jane Pit and Workington's mining heritage	Elements of the local community do not respect the work done and vandalism or anti-social behaviour occurs at the site
	Celebratory Event	Local community, National Lottery Players, volunteers, stakeholders and participants of the project	Celebration of the project and the impact that HLF funding has had on delivering this project. Increased local awareness of Workington's mining heritage	Potential for including an annual celebratory and memorial event to remember the contribution Workington made to mining developments and the sad loss of lives due to mining accidents	Creating a record of town history. Preserving heritage. Changing attitudes. Archives available globally	The local community, local National Lottery players and volunteers in the project will want to join Workington Town Council, partners and other stakeholders in celebrating the project	Prior lack of community participation will undermine the participation at the celebratory event
	Maintenance and Management of site	Workington Town Council employees and external contractors where required - with potential to include the local residents on community clean-up events	Tidying of a disused area	Creating a better landscape for the Town	Creating a visitor attraction and improving the environmental appearance of the local area	Workington Town Council will continue to have financial resources to undertake maintenance and management of the site	External financial factors may compromise Workington Town Council from undertaking the regular maintenance and management of the site. Site owners - Allerdale BC may foreshorten the lease. Future Building and development plans could earmark the adjacent amenity grounds for alternative developments
